ABOUT ME

As a frontend web developer, I am skilled in designing and developing responsive and visually appealing user interfaces. With a strong attention to detail and a passion for creating user-friendly and intuitive web experiences, I have experience working on projects ranging from small business websites to complex web applications. Additionally, I am committed to staying up-to-date with the latest web technologies and best practices to ensure that the websites & apps I develop are both functional and visually appealing.

EXPERIENCE

UI/UX Developer
BUILD MY DAPP PVT.
February 2022 - Present

As a UI/UX developer at BUILD MY DAPP PVT, I am responsible for designing and implementing user interfaces for various web applications. I collaborated with cross-functional teams to ensure that the design was consistent with the project's requirements and user experience standards. I also conducted code reviews. debugging, and optimized website performance to enhance user experience. Additionally, I stayed up-to-date with industry trends and best practices to ensure that the company's web applications were cutting-edge and competitive.
